

Athens, October 2 2010

Press Release - Relocation of the hemodialysis unit of Kallithea

Our company decided to relocate its unit from Kallithea to 18 Ellinidon Street in Palaio Faliro, on the opposite side of Syggrou Avenue, behind the Evgenidio Foundation. The relocation was necessary, in order for us to keep providing high quality healthcare services to our patients. The new unit opened in October 2010, in an ultramodern and bioclimatic building of 2,500 square meters, with ample private parking. The building, apart from the comfortable and elegant hemodialysis rooms, also boasts an advanced fresh air exchange system in all rooms, individual TVs and internet stations. This is the flagship unit of “Mesogeios” Group.
